

CONFERENCE PROGRAMME

TUESDAY DECEMBER 1							
09.30-10.30	Opening plenary	Mark Candlish, New Ventures Director, RES Northern Europe / REA Chairman - Welcome & Plenary Chair Jeremy Leggett, Executive Chairman, SolarCentury - Making renewables big for business Stephen Ainger, Chief Executive, Partnerships for Renewables - How are the new incentives significant for the public sector?					
PRACTICALITIES AND CASE STUDIES		Case studies illustrating renewable energy technologies being used today in the non-domestic building sector. What are they, what are the benefits, what do they cost, what are the learning points?					
11.00-12.30	Industry & Public Sector (own buildings)	Chair: Nicky Gavron, London, Assembly Member, GLA	Thomas Martin, Head of Partnerships Development - BT wind for change	Ben Earl, Social Responsibility Advisor on Climate Change, B&Q - What B&Q is doing to reduce their carbon footprint		Q&A	
			Peter Smith, Research and Membership Manager, CHPA - CHP in public sector buildings	Peter North, Head of Project Delivery-Environment, LDA - The LDA's energy efficiency and decentralised energy programmes	Philip Wolfe, Ownergy - How are the new incentives significant for the industrial sector?		
12.30-13.00	Dr Steve Howard, The Climate Group						
THE TECHNOLOGY OPTIONS		Which renewable energy technology and energy efficiency options are best suited to the non-domestic sector? How can they be used and what do they deliver?					
14.00-15.30	Energy efficiency & Heating and cooling	Chair: Paul Davidson, Director of Sustainable Energy, BRE	Kate Millbank / Tristan Haynes, Technical Advisor - Low Carbon Enterprise (MEA) - Energy efficiency and renewables: a smarter approach for business	Dr Vincent Thornley, Products Manager, Senergy Econnect - Demand side management		Q&A	
			Robin Curtis, Technical Director, EarthEnergy - Case studies of geothermal providing heating and cooling solutions for business	Ed Wilkinson, Head of Marketing, AHS Energy - Large scale biomass / woodchip	Martin Wager, UK Sales Manager, Cogenco (Dalkia) - CHP in the public sector or business environment		
14.00-15.30	Power	Chair: Rick Squires, Non-Executive Director - Good Energy Group	Ray Noble, PV Sector Specialist, REA - PV, how it works, what are the benefits, how will it benefit under the tariffs?	Tristan Mackie, Founding Director, Green Peninsula - Decentralised wind, what are the benefits, how will it benefit under the tariffs?	Patrick Smart, Head of Commercial and Regulatory, Senergy Econnect: Grid connection: how renewables link into the grid, regulations to be met, pitfalls to be avoided	Q&A	
16.00-17.00	Closing plenary	Trewin Restorick, Director, Global Action Plan - Bringing energy efficiency to the workplace and beyond Susan Pelmore, Pöyry Consulting - Incentives beyond the feed-in tariffs					
WEDNESDAY DECEMBER 2							
09.30-10.30	Opening plenary	Chris Miles, Managing Director, Eenergy / REA Director - Plenary Chair Miguel Mendonça, Research Manager, World Future Council - Civil empowerment and the greening of the economy Toby Hammond, Managing Director, Better Generation - How to unleash the potential of microgeneration					
THE TECHNOLOGY OPTIONS		Which technologies are most appropriate for installation in houses and flats? How can they be used and what benefits can they deliver?					
11.00-12.30	Tariff technologies, Energy efficiency & Heating and cooling	Chair: Dave Sowden, Chief Executive, Micropower Council	Jon Cape, Managing Director, Renew Services Ltd - How can energy efficiency and renewables work together for a holistic approach?	John Doggart, Chairman, Sustainable Energy Academy - Old Homes Superhomes		Q&A	
			Howard Johns, Chairman, Solar Trade Association - Solar thermal, how it works, what benefits can it deliver?	Geoff Hogan, Advisor, Biomass Energy Centre - Biomass heating, how it works, what benefits can it deliver?	Robert Meeks, Technical Executive, ICE Energy - Heat pumps, how they work, what benefits they can deliver		
11.00-12.30	Power	Chair: Virginia Graham, Chief Executive, REAL Assurance Scheme	Ray Noble, PV Sector Specialist, REA - PV, how it works, what are the benefits, how will it benefit under the tariffs?	Alex Murley, Small Systems Manager, BWEA - Wind, what are the benefits, how will it benefit under the tariffs?	Steve Cunningham, CEO, Landis Gyr - Smart metering	Q&A	
12.30-13.00	Philip Sellwood, Chief Executive, Energy Saving Trust						
PRACTICALITIES AND CASE STUDIES		Case studies illustrating how renewable energy technologies and energy efficiency can go hand-in-hand to meet regulations, improve comfort and reduce bills. What renewable technologies are being used, what are the benefits, what do they cost and what are the learning points?					
13.30-15.00	Community & social housing, Household and historic buildings & Local and regional authority	Chair: Alan Shingler, Chair of Sustainable Futures Group, RIBA	Nicholas Doyle, Head of Sustainable Development, Places for People - The potential for renewables in the social housing sector	Alan Simpson MP - Meadows Ozone (Nottingham community scheme) - How can the new incentives drive community schemes?		Q&A	
			Gary Battell, Woodland Advisory Officer, Suffolk County Council - The role of councils in promoting community use of renewables	Cheryl Hiles, Director of Sustainable Energy Delivery, Regen SW - The role of regions in accelerating renewable energy deployment	Andrew Cooper, Councillor and Advice Centre Manager, Kirklees Energy Services - The recharge scheme / how local authorities can promote energy efficiency		
15.30-16.30	Closing plenary	Gaynor Hartnell, Director of Policy, REA - Plenary Chair Pilgrim Beart, Chief Executive, AlertMe - Device partner of Google's online PowerMeter José Davila, Head of Strategy & Communications, British Gas New Energy - View on the new incentives and the business opportunities that will come of it
